

About SGA

Strategic Global Advisors, LLC (SGA) is a woman and employee-owned institutional asset management firm headquartered in Newport Beach, CA.

Since 2005, the focused investing method has been to integrate both quantitative and fundamental company analysis into one disciplined investment program.

SGA Internship Program (“SIP”)

Interested in gaining hands-on experience within the investment industry? For starters, it’s more than just trading. Strategic Global Advisors offers effective hands-on industry experience with the SGA Internship Program!

What is “SIP”?

SIP is an opportunity for young individuals to gain a tremendous amount of exposure to the industry while configuring an individual’s career trajectory. SGA offers interns the availability to interact and network with professionals that have years of experience within the field from an academic, personal & professional perspective.

What should be expected?

As an intern you can expect to work with professionals that will serve as mentors to develop your industry knowledge while offering personalized feedback on matters that extend beyond just your work. SGA also encourages participation in conferences and webinars to heighten the understanding of investment management.

How to apply:

If you or someone you may know is interested, check out our Internship & Careers page on our website by scanning the QR code(right).

If you have any questions, feel free to reach out to the following email: careers@sgadvisors.com

Hear from Tuva

"My internship with SGA was a rewarding opportunity that allowed me to take my classroom knowledge and apply it to real world scenarios. I experienced both professional and personal growth through the responsibilities I was given, the team members I got to work with, and the knowledge I gained."

Hear from Quang

"I worked on SGA’s MATLAB & Python data transfer during my internship at SGA and it was challenging but also rewarding. The team gave me just enough direction to complete the project but also expected me to increase efficiencies within SGA. I believe showing a genuine interest and understanding in your work during the internship is key. The knowledge I gained from my internship is critical to my work today."
